

Tips for pharmacy directory searches

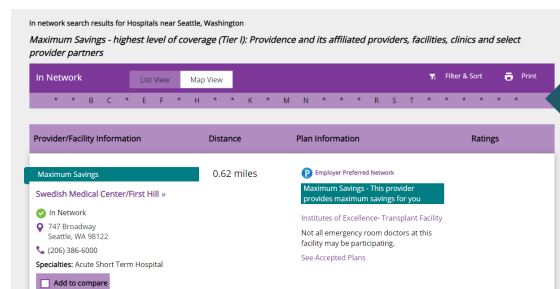

- The pharmacy directory will identify all in-network pharmacies. Once your enrollment data is sent to Aetna in December, you will be able to use the drug cost tool on the Aetna member website to locate Tier I pharmacies (if the plan you enrolled in has tiers).

Tips for medical provider directory searches

- The provider search tool will display results as Maximum Savings and Standard Savings.
 - **Maximum Savings** - the highest level of coverage (Tier I): Providence and its affiliated providers, facilities, clinics and select provider partners
 - **Standard Savings** (Tier II) = Aetna-contracted in-network providers, facilities & clinics

Note: If your plan does not have tiering, all results for those searches will show as Standard Savings.

- If you don't find your provider by office name or medical group, type in the provider's name (for example, type in Dr. James Smith instead of Eastside Orthopedics).
- When searching for a provider, the results will return the Maximum Savings providers first. If you then select to sort by letter (i.e. clicking "G" to jump to providers whose last names start with G), the results will appear alphabetically, not by Maximum Savings or Standard Savings.

- You may find your provider under multiple specialties (i.e. primary care, mental health, etc.). If you have a question about your provider's participation, please contact the Aetna Service Advocate team at 833-529-1661.
- When searching for a provider using the search bar, many names may appear for you to select. You will need to select each provider to confirm network participation. Just because they show as an option to select does not mean they are participating in your plan.
